If the state and MCPs did not encounter any challenges, please enter "No challenges were encountered" as your response. "N/A" is not an acceptable response. | A big challenge for the dental managed care networks in the rural and frontier counties is finding dental specialists, including endodontists, prosthodontists, and oral surgeons. Many of these specialists are not willing to provide services to Medicaid members   |
| C1V.2  | <b>State response to gaps in network adequacy</b><br><br>How does the state work with MCPs to address gaps in network adequacy?   | The dental plans address the specialist shortage by helping members find general dentists who can perform speciality care services within the scope of their licensure. Dental plans may have to execute a single case agreements with a non-network provider for speciality care services. They also may pay a higher fee schedule to some of their in-network specialists. For example, dental plans may pay higher fee schedules to endodontists in rural and frontier counties because of a lack of endo providers in rural and frontier counties. The State supports the managed care plans' efforts to address their network adequacy challenges and works with the plans to identify other corrective measures. |

| D1IV.1  | <b>Appeals resolved (at the plan level)</b><br><br>Enter the total number of appeals resolved during the reporting year. An appeal is "resolved" at the plan level when the plan has issued a decision, regardless of whether the decision was wholly or partially favorable or adverse to the beneficiary, and regardless of whether the beneficiary (or the beneficiary's representative) chooses to file a request for a State Fair Hearing or External Medical Review. | <b>MCNA Medicaid Dental</b><br>120<br><br><b>Premier Access Medicaid Dental</b><br>292 |

| <b>D1IV.4</b>  | <b>Number of critical incidents filed during the reporting year by (or on behalf of) an LTSS user who previously filed an appeal</b><br><br>For managed care plans that cover LTSS, enter the number of critical incidents filed within the reporting year by (or on behalf of) LTSS users who previously filed appeals in the reporting year. If the managed care plan does not cover LTSS, enter "N/A". Also, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, enter "N/A". The appeal and critical incident do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the appeal need to have been filed in relation to delivery of LTSS — they may have been filed for any reason, related to any service received (or desired) by an LTSS user. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed an appeal during the reporting year, and whether the filing of the appeal preceded the filing of the critical incident. | <b>MCNA Medicaid Dental</b><br>N/A<br><br><b>Premier Access Medicaid Dental</b><br>N/A |

an LTSS user. If the managed care plan does not cover LTSS, the state should enter “N/A” in this field. Additionally, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, the state can enter “N/A” in this field. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed a grievance during the reporting year, and whether the filing of the grievance preceded the filing of the critical incident.
