

ABOUT NEW CHOICES WAIVER

The New Choices Waiver Program is designed to serve individuals who are residing long term in a nursing facility, licensed assisted living facility, licensed small health care (Type N) facility or another type of Utah licensed medical institution (except institutions for mental disease). The Program offers an option for these individuals to move into integrated community-based settings if they wish to do so and if their needs can be safely met in the setting that they have chosen. When an individual is enrolled in the New Choices Waiver Program, they may receive an expanded package of supportive services through Medicaid which are intended to help with community-based living and are based on the assessed need of the individual.

ABOUT US

Founded in 2024, Beehive Community Case Management was created by a Registered Nurse and a Licensed Social Worker with a shared commitment to serving vulnerable populations. With combined experience supporting seniors, individuals with disabilities, and those experiencing homelessness, our team understands the importance of thoughtful, person-centered care planning.

Inspired by Utah's iconic beehive—a symbol of industry, unity, and community—we work collaboratively with families, providers, and support systems to ensure every client receives the guidance and resources they need to thrive with dignity and independence.
